FASTEST TIME TO EUROPE.

Some of the Remarkable Voyages by Ocean Steamers. New York Tribune.

At a reception given on board the Guion steamship Alaska, by Captain George S. Murray, on the day before she last sailed from this port, the captain, in response to a remark, said: "Yes, the Alaska has made the fastest time on record, but she will beat her record this trip." The captain's prophecy has proved true, and the trip from Sandy Hook to Queenstown was made by the Alaska in less than seven days, the only instance on record. She sailed from here on May 30, clear-ing Sandy Hook bar at 5:28 p. m., and arrived at Queenstown at 8 p. m. 9 2 on Tuesday. Deducting four hours 2,140 and twenty-two minutes for difference of time, see made the trip in six days, \$50 twenty-two hours and ten minutes. This includes the time lost in discharging the pilot after clearing Sandy Hook. In 1848 it was considered remarkable that an ocean steamship should make the passage in less than sixteen days. Year after year, how ever, the improvements in the con-22,000 struction of vessels, the fine lines 29,750 given to the hulls and the increase of steam-engine power have given greaterspeed, and the voyages have been shortened by marked steps

it would not account entirely for the the impetus to a wonderful advancement in naval architecture and marine engine building. Ocean vessels not only now make the same distance in only now make the same distance in less than half the time, with the consumption of less than half the fuel burned twenty-five years ago. When in 1866, a steamsdip made the transatlantic trip in a little less than eleven days, it was considered a showness, it was considered a showness, or so the bistory of atlantic trip in a little less than eleven days, it was considered a phenomenal epoch in the histery of ocean travel. From years later there was a marked rivalry be the Cunard line. In September last she made the trip from Queenstown to New York in 8 days, 1 hour and 50 minutes, and returned in 7 days, 18 hours and 32 minutes. The City of Rome, of the Inman line, has no proved to be so fast as was anticipated, although she has made good speed. The City of Chester, of the same line, is equally as fast as the City of Rome. The Servia of the Cunard line, is another of the fast ocean vessels, having made the trip to tween the White Star, Cunard and Inman lines, and the time consumed in making the trip from New York to Queenstown was cut down to ten and a half days. The Baltic, of the White Star Line, in 1871 made the passage from Queenstown to New York in eight days, nineteen hours and fiftytwo minutes, and back to Queenstown in eight days, fifteen hours and three minutes. The steamers of this line made a surprising record that year, the average time of twenty-four trips from New York to Queenstown being only eight days, fifteen hours and three minutes. The Adriatic and three minutes. The Adriatic made the best trip in seven days, 23 hours and 17 minutes from Queenstown to New York. The Baltic, of the same line, made the passage to PRINCIPALLINE Queenstown from New York in 7 days Cattle—Better feeling in to fat cattle market; shipping cattle, 5 25@8 75; butchers' stock, 7 60@5 60; Texans, 2 50 @4 75; stockers and feeders, 2 75@4 60. and 20 hours and 9 minutes. The CHICAGO, making the trip in 7 days, 15 hours and 48 minutes, and the City of Rich mond, of the same line, made the passage from Queenstown to New York in 8 days and 2 minutes, which time was remarkable when it is remembered that the eastward passage is made more quickly than the westward owing to the perceptible in-fluence of the Gulf Stream. This record was beaten, however, in 1856 by both the Germanic and Brittanic, of the White Star Line, the passage to Queenstown of the former being made 6,250 in 7 days, 15 hours and 17 minutes, 1,955 and of the latter in 7 days, 12 hours and 41 minutes. The same vessels made the passage from Queenstown to New York in 1877, the Germanic in 7 days, 11 hours and 37 minutes, and

less days. Next came the Gallia, of Queenstown in 7 days, 7 hours and 30 For the Contruction of Indian minutes. The Alaska has made fast

Queenstown in 7 days, 7 hours and 30 minutes. The Alaska has made fast time ever since she began to run, and on March 28 finished a trip to Queenstown in 7 days, 6 hours and 43 minutes. Her next trip from Queenstown, on April 9, for New York, was made in 7 days, 8 hours and 44 minutes. These were the fastest trips eastward and westward on record. Her fast trip previyus to the one just finished, to Queenstown, was made in 7 days and 26 minutes.

-Gen. Crook left for Cheyenne yester day and will probably proceed from their to Fort McKenney, to which place a company of cavalry has just been ordered from Sidney, which will increase the force to five companies. This movement is necessitated by anticipation of trouble with the Crows, who have been steeling cattle and horses and committing other depraditions.
